

Arman Srivastava

+917607075677 | arman.bxm@gmail.com | Full stack Developer, .

Summary

Innovative Programmer and passionate Full-stack JS Developer with over 1.5 years of experience evaluating and improving business systems for well-known organizations. Dedicated team leader with the ability to effectively manage and achieve project goals, leveraging my complex understanding of systems engineering concepts. A creative thinker, adept in software development and working with various data structures. Bringing forth a proven track record of analyzing complex data sets and serving as a strong data advisor.

Skills

ReactJS, JavaScript, Node.js, Google Cloud Platform, Linux, PostgreSQL, MySQL, SQL, Power BI, HTML CSS, Informatica, MongoDB, Database Development

Experience

Wipro | Pune, Maharashtra

Project Engineer | 03/2020 - Present

Full Stack Javascript Developer

- Developed and maintained responsive web applications using *HTML5, CSS3, and JavaScript frameworks (React)*.
- Implemented front-end designs and user interfaces, ensuring cross-browser compatibility and optimal user experience.
- Integrated with backend APIs, developing RESTful endpoints and handling data retrieval and manipulation.
- Collaborated with designers, UX/UI teams, and stakeholders to translate requirements into technical solutions.
- Worked on database design and implementation, writing efficient SQL queries and ensuring data integrity.
- Implemented server-side logic using Node.js, Javascript, and integrated with databases and external services.
- Conducted code reviews, debugging, and testing to ensure high-quality and scalable code.
- Utilized version control systems (Git) for code management, branching, and collaboration with other developers.

Informatica and Database Developer

- Developed and implemented data models, database schemas, and ETL processes to extract, transform, and load data from various sources into the company's data warehouse.
- Performed data cleansing, validation, and quality assurance to ensure data accuracy and integrity.
- Implemented a data warehouse to store and analyze large volumes of data, resulting in improved decision-making by management.
- Lead the team in the migration of the legacy- database to the MySQL services.
- Assisted in database upgrades and migrations, ensuring minimal disruption to business operations.

Education

University of Lucknow | Lucknow, Uttar Pradesh

Bachelor's in Electronics and Communication Engineering | 06/2022

Graduated with First Class with Honors.

Certificates

Google Cloud Associate Engineer
